MMLS & Future Plan

- MMLS is a web based LMS developed using php, apache and mysql
- It implements SCORM 1.2
- Developing a SCORM editor
- Plan to get ADL certification
- Developing a multi byte LMS

AEN Plugfest & Test Results

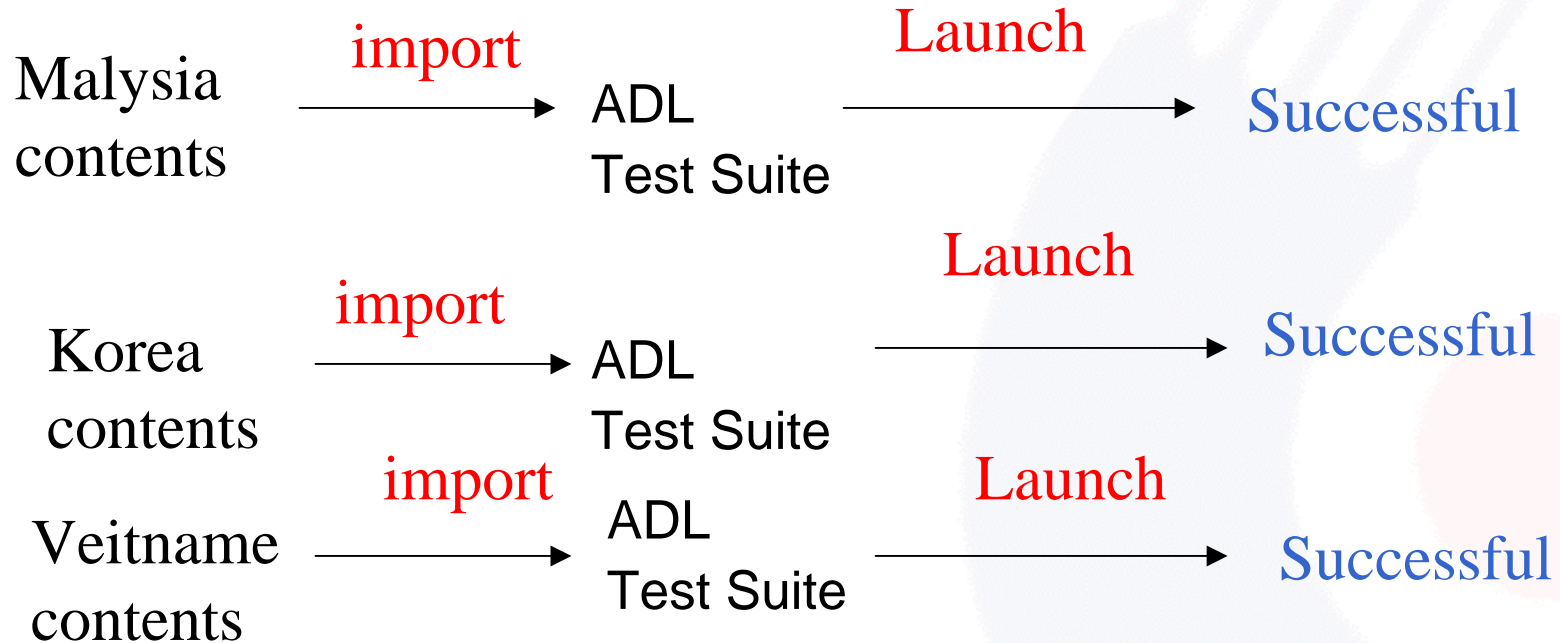

Multimedia Learning System is currently **single byte**, so only can test english contents of vietnam and korea

MMLS (LMS) Testing

AEN Plugfest & Test Results

Sco Run Time and Content Packaging Test

Advantages of AEN plugfest

- Opinion exchange session was really very useful in this event
 - Exploring different ways of doing the same thing
 - Performing ADL test suite and error log discussion
-
