

Introducing AEN AWARD 2004

Asia e-Learning Network
AEN AWARD Committee
Chairperson Prof. Toshio OKAMOTO

December 16, 2004

The Objectives of AEN AWARD

AEN AWARD is a place to introduce the award-winning works, and its winning reason to the participants from AEN countries at the AEN Award event.

To bring people's attention to the importance of the quality of e-learning products through the AEN AWARD.

To provide a chance for award-winners and participants to communicate, and hopefully develop a business chance, and activate the circulation of e-learning contents in Asia.

The Overview of AEN AWARD

As the very first year of this attempt, we want to make AEN AWARD 2004 a place to collect and exhibit the commendation works in e-Learning related award, which has already been performed in each country. We are not planning to evaluate nor make rankings as AEN.

Introducing the e-Learning related award event and its judging/evaluating criteria, process to each other (Closed; 15th Dec. at the AEN Award Committee meeting)

Presentation and Showcase of award-winning works (Open; 16th Dec. at Pacific Ballroom 2)
